John, Peter, Roger, Jim & Ian,

I've heard that you performed a very careful Concours Inspection of BN2L-230294 in 2022. I know this can be an extremely tedious exercise. In your case it took over twice as long as we do here in the States. This Concours program is one way of encouraging people to pay attention to many details that are commonly ignored or overlooked, but cars so meticulously prepared become "encyclopedic" examples for others who are serious about replicating a car to what it as when newly off the assembly line, to study when having a restoration done. There are all too few Healey "experts" around who are knowledgeable enough to perform such judging and I commend you for your commitment and stamina for doing so.

All my Best Wishes,
